Name(s):_____

Space Projects

Choose 1 assignment from the list below.
You may complete more, if time allows.

Create a can-sized product that would improve the life of astronauts in space. Include a 1 page description of your creation.

Imagine you would have to design the "buildings" for the first settlement of 6 people on Mars. Create a blueprint for all buildings needed to sustain life. Include a 1 page description of your settlement.

Create a travel brochure for a planet of your choice. The brochure should feature pictures and descriptions of your chosen planet.

Create a video as if you were on the ISS (International Space Station) conducting an experiment or explaining an area of life in space.

Design an experiment about something that you wonder, if it would work in space (e.g. can spiders make webs in space? etc.) Make a video or write a proposal to NASA about why they should run your experiment in space.

Create a poster about a historic space mission.

Research the requirements that you need to become an astronaut and afterwards write an application for a position as an astronaut for NASA.

Create your own assignment. For example, make a poster or video -> Try to answer the question about space that you came up with at the beginning of the first lesson of this unit. Confirm your idea with the teacher.
